

IMPORTANT INFORMATION ATHLETE INSURANCE

All athletes should be aware of the following information as it pertains to medical insurance:

1. All athletes coming to a Canada Basketball invitational workout or national team tryout camp must have medical insurance through their provincial medical or alternative plan that you have purchased. Canada Basketball will not carry medical insurance for athletes attending workouts or tryout camps.
2. During the workouts or tryout camps, Canada Basketball will provide on-site therapist support and attention. However, please be aware that the individual athlete is responsible for any costs over and above provincial health care coverage in the case of an injury.
3. Canada Basketball and any facilities used are not responsible for injuries suffered by an athlete during, or as a result of the tryout camp.
4. All athletes that are selected to a Canada Basketball national team will be registered Canada Basketball's insurance package provided by AIG. This plan provides extended medical and accident coverage, primarily in the areas of therapy, orthotics and chiropractic care.
5. This extended coverage cannot be used by any athlete that does not have some form of provincial Medicare. Athletes who do not have provincial Medicare are responsible for their own health insurance coverage.

Please indicate your understanding of the above by signing this waiver and returning it prior to the workout or tryouts. **THANK YOU!**
